Singer, songwriter and producer

Copenhagen producer Anders Neal explores soundscapes distilled from 15 years of writing and performing acoustically. He induces playful layers into his music with his crispy falsetto and clean Nordic minimalism. Educated as an engineer in a past lifetime, he brings the love for detail and rhythm into his music.

Single "Sold"

"Sold" is a warm, pure track with improvised vocals about letting go and giving in. It is best described as an artpop soul journey through sounds from outside the box. "Sold" explores different rhythmical layers while staying true to its less-is-more initial impulse. Released November 7th 2019.
